Remember what we learned in our true Bible story today? God's people faced God's punishment - because of their sin and the sin of their kings who should have helped them live as God's people, they were removed from God's good place. But God's still not going to let sin ruin everything...

DID YOU SPOT IT?

What was the right choice?

love and obey

turn away

But what did they do?

turn away

love and obey

So what did God do?

said it's okay!

sent them away

Do you think people today normally chose to love and obey or turn away? Why?

Do you think a human king could be the leader that God's people need?

Next week, we'll see what God promises to do so that we don't have to always stay away!
